**SOPHOS**

simple **+** secure

Sophos UTM Email Protection

Keeps your inboxes clean

‣ **Filter spam:** Accurately identify spam in any language using dozens of different methods—regardless of their contents.

‣ **Simplify mail management:** Let users manage their own mail quarantine and define individual blacklists/whitelists via a localized user portal.

‣ **Stop malware:** Block viruses, phishing and other unwanted emails using dual commercial virus scanners, MIME type and extension filters.

‣ **Encrypt email:** Transparently encrypt emails on the gateway (S/MIME, OpenPGP)—no client software or end-user training needed.

‣ **Reputation filter:** Instantly identify and reject up to 90% of unwanted emails based on reputation before the actual email is even transferred.

‣ **Sync user directory:** Active Directory and eDirectory integration automatically syncs users and groups simplifying mail policy configuration.

Sophos Datasheet

The Sophos UTM Email Protection subscription combines accurate, high-capacity mail filtering and encryption with convenient mail management tools for administrators and employees.

Deployment scenario of Sophos UTM Email Protection

Your Benefits

‣ Increase your employees' productivity by keeping their inboxes clean

‣ Protect employees against identity theft, banking scams and other tricks

‣ Prevent network outages and data loss caused by malware infection

‣ Reduce legal liability risks by automatically encrypting emails

‣ Free up your Internet line through early email rejection

‣ Reduce daily admin workload through quarantine self-management

"With UTM Email Protection our manual intervention dropped by over 75%."

Michael Mierwinski, CIO, Mid-America Overseas

Technical Specifications

Appliance	UTM 110	UTM 120	UTM 220	UTM 320	UTM 425	UTM 525	UTM 625
Recommended users	10	70	275	750	2,000	3,300	4,500
Email throughput (seen emails/h)	250,000	250,000	400,000	600,000	1.4 million	1.5 million	2.2 million
Email throughput (scanned emails/h)	30,000	30,000	52,000	78,000	180,000	200,000	250,000

Features

Anti-spam

‣ Reputation service with spam outbreak monitoring based on patented recurrent-pattern detection technology
‣ Advanced spam detection techniques: RBL, heuristics, SPF checking, BATV, URL scanning, greylisting, HELO and RDNS checks, expression filter, recipient verification
‣ Block spam and malware during the SMTP transaction
‣ Detects phishing URLs within emails
‣ Global and per-user domain and address blacklists/whitelists
‣ Recipient verification against Active Directory account

Malware scanning

‣ Email scanning with SMTP and POP3 support
‣ Dual commercial antivirus engines with over 800,000 patterns
‣ Archived and compressed attachment scanning with deep-level support
‣ Scan embedded mail formats
‣ Blocks malicious and unwanted files with MIME type checking
‣ Quarantine unscannable or oversized messages
‣ Filter mail for unlimited domains and mailboxes
‣ Automatic signature and pattern updates via Sophos Up2Date service

Encryption

‣ Transparent encryption/decryption and digital signing for SMTP emails
‣ Completely transparent, no additional software or client required
‣ Supports S/MIME, OpenPGP and TLS standards
‣ PGP key server support
‣ Allows content/virus scanning even for encrypted emails
‣ Central management of all keys and certificates—no key or certificate distribution required
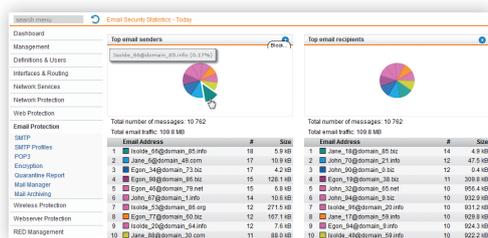

Management

‣ User quarantine report mailed out daily at customizable times
‣ Customizable UserPortal for end-user mail management, in 15 languages
‣ Anonymization of reporting data to enforce privacy policy
‣ Over 50 integrated reports
‣ PDF and CSV exporting of reports
‣ Daily, archivable executive reports delivered by email
‣ Customizable email footers and disclaimers
‣ Setup wizard and context sensitive online help
