

Sophos UTM Web Protection

Ensures safe and productive web use

- ▶ **Impose surfing rules:** Select from 96 categories to stop access to illegitimate and non-productive websites at configurable times.
- ▶ **See and control applications:** Monitor thousands of applications: block Facebook games and Bittorrent, limit Youtube streaming, accelerate Salesforce.com.
- ▶ **Prevent infection:** Perform fast, accurate scanning for viruses, spyware and active content via dual independent antivirus engines.
- ▶ **Stop data loss:** Block hidden sending of personal information from already infected PCs to the outside world.
- ▶ **Log and report:** Navigate through reactive reporting to get hundreds of details on user surfing activity; email customized reports to managers.
- ▶ **Protect privacy:** Protect user name anonymity within reporting data to enforce privacy policies.

The Sophos UTM Web Protection subscription protects you against liability related to malware infection from unauthorized applications while giving you a clear view of how employees spend time online.

Deployment scenario of Sophos UTM Web Protection

Your Benefits

- ▶ Gain a crisp, clear picture of how the Internet is being used
- ▶ Accelerate critical applications by ensuring they have appropriate bandwidth while blocking or limiting unwanted, unproductive ones
- ▶ Increase your employee productivity by enforcing surfing policies
- ▶ Reduce legal liability risks by blocking access to certain websites
- ▶ Prevent network outages and data loss caused by virus or spyware infections
- ▶ Easily use your authentication servers for creating profiles by user or group

"With Sophos Web Protection our employee casual surfing and time wasting dropped by about 75%."

Michael Mierwinski, CIO, Mid-America Overseas

Technical Specifications

Appliance	UTM 110	UTM 120	UTM 220	UTM 320	UTM 425	UTM 525	UTM 625
Recommended users	10	40	140	330	1,100	2,300	3,800
Web proxy throughput (Mbps)	220	220	625	1,250	2,000	1,800	1,950
Antivirus throughput (Mbps)	70	70	165	235	520	560	980

Features

Security

- ▶ URL Filter database with 35 million+ sites in 96 categories and 65+ languages
- ▶ Application control: Accurate signatures and Layer 7 patterns for thousands of applications; Skype, Bittorrent, Facebook, Youtube, Salesforce.com and many more
- ▶ Enforce the safe-search features of Google, Yahoo and Bing
- ▶ Restrict Youtube access to appropriate content with Youtube For Schools integration
- ▶ View traffic in real time; choose to instantly block or shape
- ▶ Malware scanning: HTTP/HTTPS, FTP and web-based email via Sophos antivirus scanning and a second independent engine
- ▶ Active content filter: File extension, MIME type, Javascript, ActiveX, Flash
- ▶ Spyware detection: incoming and outgoing

Policies

- ▶ Authentication: Active Directory, eDirectory, LDAP, RADIUS, TACACS+, local DB
- ▶ Single sign on: Active Directory, eDirectory, Apple Open Directory
- ▶ Proxy modes: Standard, (fully) transparent, authenticated, single sign on, agent
- ▶ Supports separate filtering proxies in different modes
- ▶ Time, user and group-based access policies
- ▶ Allow temporary URL filter overrides with authentication
- ▶ Client authentication agent for dedicated per-user tracking

Management

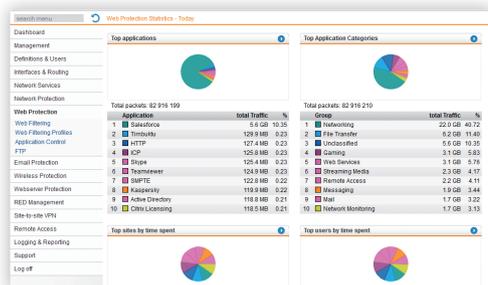

- ▶ Per-profile settings for all filtering options
- ▶ Cloning of security profiles
- ▶ Customizable user messages for events in local languages
- ▶ Company logo placement on block pages
- ▶ Proxy auto configuration via PAC files
- ▶ Custom HTTPS verification CA support
- ▶ Frequent URL database and virus pattern updates
- ▶ Setup wizard and context-sensitive online help
- ▶ Windows Server 2008 native mode support

Logging/Reporting

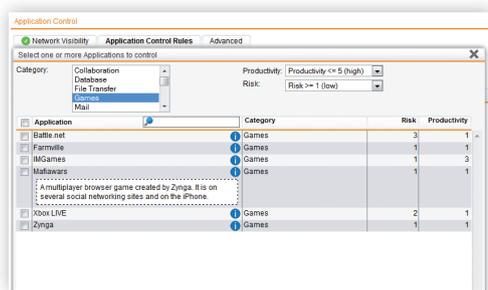

- ▶ Reactive reporting crafts reports as you click on data
- ▶ Save, instantly email, or subscribe recipients to any report(s)
- ▶ PDF and CSV exporting of reports
- ▶ Nightly compression and rotation of logs
- ▶ Log file archiving: on-box, FTP, SMB, SSH, email, syslog
- ▶ See who searched for what using major search engines
- ▶ Daily activity reporting
- ▶ URL filter override report
- ▶ Per-user tracking and auditing
- ▶ Anonymization of reporting data to enforce privacy policy
